There was a better feeling in the Stock Market to-day, and a more convalescent appearance than we have noticed since the Tompkins flurry last week. The advance in all descriptions was moderate, and appeared to be sound. There was a fair demand for the Fancies, and those who sold out at the top of the market, are coming in again at lower prices. Reading was buoyant, and improved to 647, an advance of 17 P ct- The advices from Washington, in relation to the prospects of a revision of the Tariff, have had a favorable effect upon this Stock. Harlem, Erie, Morris, &c., were also i to 1 P ct. better, with a fair

In Exchanges the market for the steamer is active, but the rates are lower. Sterling goes freely at 10 P cent, but is slow at anything over that. Some bills have sold with bills lading at. tached as low as 910 cent. France are 5.121, at which bills are cheaper than silver-so that coin will not be shipped to France at present rates Amsterdam, 411 242; Hamburg, 361 237;

Money on call is much more plenty to-day, and some of the Banks anticipate still more case dur ing the month. The rates of interest have been advanced generally, and loans are again freely made. On call, the rates are 526 F cent. On sixty-day first class paper the rate is 6 \$ cent; long paper, 7 V cent.

Equal to 250 per cent.

This increase is attributable to the opening of twenty five miles of new road which were brought into use about the middle of December. About twenty-five miles more of new road will be brought into use in March; and we understand that the road will be completed to the State line of Indiana by July, and that the Northern Indiana Railroad, (which is an extension of the Michigan Southern from the State line of Michigan through the State of Indiana, will be finished to South Bend-162 miles from Lake Erie-by September next, and to Lake Michigan, at Michigan City, by January next. West of Michigan City the road is already graded and ready for the iron for nearly 30 miles; and it is in contemplation to have the entire line from Lake Erie to Chicago in operation by the Spring of 1832. Iron has been purchased sufficient to carry the Road to Lake Michigan, and the work of construction is actively progressing along the whole line in Indiana. This is destined to be one of the most productive, and one of the most important lines of Railroad in

The exports of Specie last week were \$305,496. all of which was silver. The exports since 1st of January reach \$1,296,281.

On Monday next the arrangement between the Erie and Ramapo and Paterson Roads goes into operation. The annexed statement gives some interesting

statistics of the Philadelphia Mint and proves con clusively that it is, under its present management incapable of meeting the wants of the public .-The necessity of a Mint in New-York becomes more imperative every day. The coinage of gold has been greatly dimini hed. in consequence of a suspension of the refining op-

erations from the 30th December, 1850, to the 20th of January, 1851. This suspension was necessary, partly to enable the melter and refiner to settle his account under the law, which requires him, for that purpose, annually to deliver all the bullion in his hands to the Treasurer : partly to afford an opportunity to prosecute certain improvements now complete, whereby the capacity of the Mine

is enlarged to meet the demands of the depositors and the public.

It will also be observed that the deposits of California gold it January have been \$4,940,000, while the amounreported to have arrived is only \$3,500,000, s how ing that the estimates of the amount in the hands of passengers is now under, rather than overstated.

The transfers of Stock at Washington to foreign account are now trifling.

The amount of Treasury Notes outstanding on the 1st February was \$189,811.

The Directors of the Buffalo and Conhocton Valley Road have purchased within a few days in this City, two thousand tuns of rails, and are in negotiation for a sufficient quantity to finish the Road.

The Canandaigna Road is going forward with energy, and a movement is being made to continue it to Rochester, where a connection will be formed with the Rochester and Niagara Falls Road, making a direct route from Canada to the Erie Railroad.

The subscriptions to the Syracuse and Bing hamton Road are proceeding favorably. The annexed statement shows the exports from this port for the week ending February 1:
